

# BECOME A MEMBER EXERCISE YOUR LEADERSHIP AND INFLUENCE

Since 1997 we have set strategies and developed a women's network to advance and protect our professional and business interests. We are dedicated to helping promote career driven women and to learn to market ourselves better in today's world through seminars, workshops, special events and mentorship programs conducted in Spanish and bilingual formats.

Hispanic American professional and business women are fueling the economy, raising a huge portion of the next generation of this country's workforce, and we are exercising our leadership and influence. Become a member today and help us build a promising future for ourselves, and our families.
